**Re: Agreement between Lloyd's of London and Mechanical Line Solutions Srl subscribed through Marine & General underwriting Agency Srl**

To the attention of all clients of Mechanical Line Solutions Srl

We are a Lloyd's Coverholder Italian Company, referee of Lloyd's of London, with access to all Lloyd's Syndicates covering all lines of risk in Italy, with the exclusion of Car Liability, and we would like to bring to Your attention an important agreement that we have subscribed with Mechanical Line Solutions Srl, producer of Security Systems for all kind of vehicles.

**After a careful analysis on security systems internationally available on the market, we have come to the conclusion that Project Security MLS 360° (Progetto Sicurezza 360°) is the most reliable one against both vehicle thefts and the protection of our clients assets insured through our Company.**

We offer cover against Fire, Theft and Damages caused during theft attempts, without deductibles and deductions, in ALL the Italian territory, and ONLY when certified by MLS Project 360° (Progetto Sicurezza 360°).

Net rates varies from 0,5% to 0,9% (plus 10% Fees and 13,50% Taxes), depending on claims statistics and areas of risk as stated by Lloyd's.

As you'll surely know, Lloyd's of London is the most ancient and worldwide renowned Insurance Organization, but should you need more information, please visit Lloyd's official site. Lloyd's name is itself a Guarantee.

Please feel free to ask for whatever explanation you should want.  
Many regards,

Claudio Franconi
